Subject: Lemonade Day 2026

Good morning,

It's getting to be that time of again! I am reaching out behalf of our Lemonade Day Program which will take place on June 13, 2026. This initiative empowers kids in our communities to learn about entrepreneurship, financial literacy and goal setting by starting and running their own lemonade stands. We are excited to be running this program again this year and are looking for community partners to help make it a success. There are a couple of ways your business or organization can get involved.

Make a contribution:

Donations help us provide materials, resources and support for participating kids. In kind contributions, such as volunteering to help out with the Lemmy U training session or judging lemonade stands are also wonderful!

Host a lemonade stand:

Partner with a young entrepreneur by becoming a "Sweet Spot". This involves allowing them to set up their stand at your business on Lemonade Day. This is a great way to bring positive energy to your business while supporting local youth.

Your support not only helps kids build confidence and real life skills, but also strengthens our communities by encouraging creativity and small business thinking at a young age. If you are interested in participating, please take a few minutes to complete our online form, I have provided the link below. If you have further questions please reach out.

Thank you for your consideration in supporting this great program!
